

1 **ABSTRACT OF THE DISCLOSURE**

2 The invention relates to a pharmaceutical composition for the treatment
3 of skin neoplasm, which comprises a therapeutically effective amount of arsenic
4 trioxide and a pharmaceutically acceptable carrier. Furthermore, the invention
5 also relates to a method of treating skin neoplasm in a human by administering to
6 a human in need thereof a therapeutically effective amount of a pharmaceutical
7 composition comprising arsenic trioxide.
